If you wish to install an on-board video system on a Rallye du Maroc vehicle, the team must complete and return the form (FIA, FIM) provided for this purpose and available on the official website, section «Media» and «Competitors», by September 27, 2024, by [media@rallyedumaroc.com](mailto:media@rallyedumaroc.com)

## 14. Non-assistance to competitors:

In accordance with the various Moto-Quad and Auto regulations, any person benefiting from a media commitment for the rally must in no case provide any assistance whatsoever to a competitor before, during or after the race: communication of information on the route dedicated to the media, transport of parts, supply of fuel, transport of bivouac equipment, mechanical intervention, otherwise be excluded from the rally and lead to the disqualification of the competitor concerned.

On this point, particular attention will be paid to press officers and community manager of teams or main sponsors of teams.

However, in cases where the crew of a competitor's vehicle is in difficulty, or is unable to clear the runway, the occupants of a media vehicle must assist, in the only case where the situation would therefore constitute a danger to the competitors and the smooth running of the race.

Before any action, the press vehicle must refer to the Organization via the race PC – this telephone number will be communicated to you on site.

## 15. Behavior:

All the Media people must have a respectful behavior on the road as well as with the Moroccan authorities and population, the competitors, the other media and all the families of the organization. It is a question of common sense, and it is also a question of the image of the rally as well as the media represented. Any incivility will result in exclusion from the rally.

## 16. Traffic rules, crossing sensitive areas, bivouac:

Media accredited persons in Media vehicles must respect the traffic rules in force in Morocco. It is the responsibility of each accredited person declared as a driver to be aware of them. All violations will be dealt with by the local authorities. In this matter, no leniency or intervention of the organization is to be expected.

It is expressly requested that **the greatest vigilance be adopted when crossing any inhabited area accessible off-piste or by road**. In the event of an accident, the vehicles and media accredited persons concerned will be handed over to the local authorities.

Given the concentration of people and vehicles, as well as the intense activity **on a bivouac, it is requested to move at a pace and with the utmost vigilance**.

## 17. Environment:

In this matter, **all media persons must have a responsible attitude:**

On the bivouacs, waste must be deposited in the various collection areas provided for this purpose.

In the press room (once the work is finished, check that the place is clean), in the catering and competitors' areas.

**In the vehicles, keep the waste until the return to the bivouac** and then deposit it in the various collection areas provided for this purpose.

**In case of tire change, bring the used tires back to the bivouac.**

**In case of mechanical work on a Media vehicle, before leaving, check that the waste has been collected and deposited in the areas provided at the bivouac.** In case of non-respect of these elementary rules, the accredited media person is exposed to sanctions, which can go up to exclusion.

If the good repute and/or morality of the persons for whom the request for an undertaking has been made are likely, for example, to jeopardize the safety rules (whose strict observance is essential to the smooth running of the test), If the integrity and reputation of the event and/or the Organizer has been achieved, if there's a history of defaults, etc.. If there are logistical constraints forcing the Organizer to limit the number of people accredited on the rally.
